EXTRAORDINARY CURES OF CONSUMPTION. D. J. H. SCHENCK, proprietor of Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills, more than 30 years ago was supposed to be in a dying condition, his disease being Pulmonary Consumption, which had proceeded, as his triends and physicians believed, to the very last stage. No one thought it possible that he could live two months, when he began to use the Syrup which now bears his name. The result was most astonising. He speedily recovered his health; and now, after the lance of a quarker of a centure, his constitution appears to be as sound as if he had never experienced a day's sickness in his sife. He is not only healthy, but corpulent, weighing considerably more than 200 pounds. He has since prescribed the same medicine to thousands of consumptive patients, and much the greater number of them have recovered in like manner. Dr. S. having observed that Liver Complaint and Dyspepsia are often the consentiants of pulmonary disease, and that they not unfrequently produce it, has invented two other medieines, adapted to cases in which consumption is complicated with disorder of the stomach or liver. These auxiliary remedies are the Seawed Tonic and Mandrake Pills, the first of which strengthens the constitution of the patient, and greatly improves the power of digestion; and the inter removes all obstructions
